

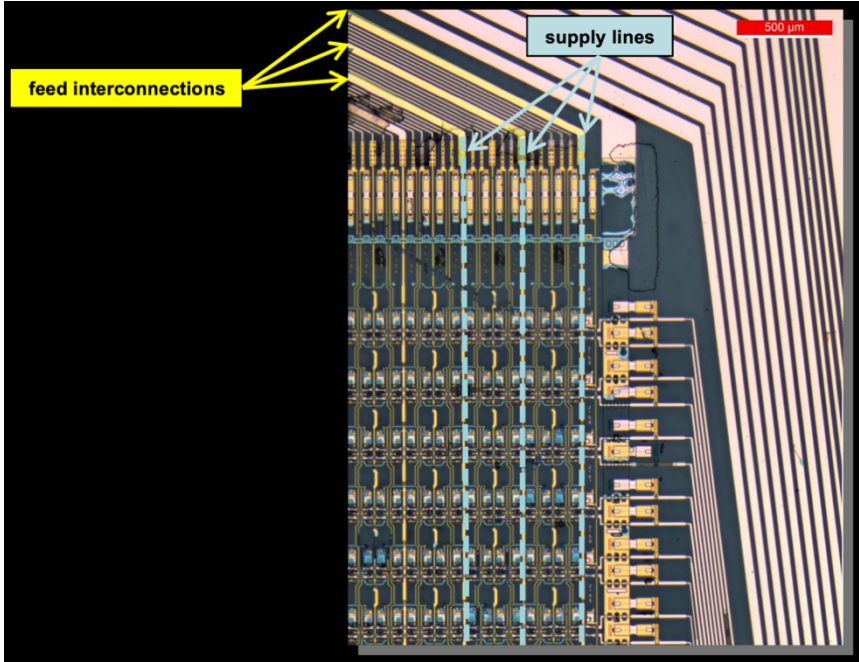

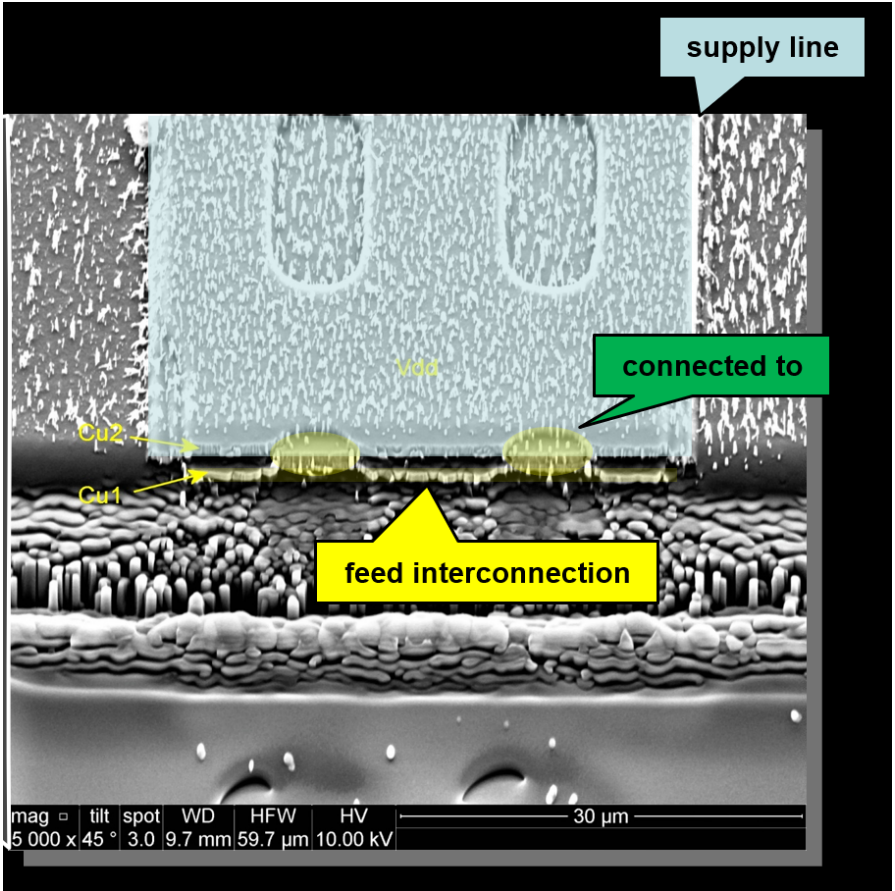

# EXHIBIT 18

*Solas OLED Ltd. v. LG Display Co., Ltd., et al.*, Case No. 6:19-cv-00236-ADA

<i>Claim Element</i>	<i>'068 Accused Instrumentalities</i>
	 <p>The micrograph shows a detailed view of the OLED display panel's internal structure. A yellow box labeled 'feed interconnections' points to a series of horizontal lines on the left side of the panel. A blue box labeled 'supply lines' points to a series of vertical lines on the right side of the panel. A red scale bar in the top right corner indicates a length of 500 μm. The panel features a grid of small, rectangular OLED cells connected by these lines.</p>

<i>Claim Element</i>	<i>'068 Accused Instrumentalities</i>
	
<p>5. A substrate according to claim 1, further comprising a plurality of light-emitting elements each of which is connected to one of the source and drain of a corresponding one of the driving transistors.</p>	<p>The '068 Accused Instrumentalities comprise a plurality of light-emitting elements each of which is connected to one of the source and drain of a corresponding one of the driving transistors. For example, the Sony Bravia 55A1 OLED Television display panel comprises a plurality of light-emitting elements each of which is connected to one of the source and drain of a corresponding one of the driving transistors shown below:</p>
